

Greater Oregon TBF (GOT) Club National Semi-Finals Qualification

As a TBF Oregon club, GOT can send at least one Boater and Non-Boater to the NSF each year. That number can grow based on the number of Mother Club memberships. With 20 members, GOT can send 2 pairs, and 3 pairs with 30 members, sending one additional team for every 10 mother club members. We anticipate at least 20 GOT members in 2020 therefore we expect to qualify at least 2 GOT teams for the 2020 NSF.

The following is a proposed criteria for GOT member NSF qualification.

1. GOT Membership
2. Must Fish in at least four (4) TBF Oregon Qualifiers
3. Team did not qualify as a State Team Qualifier
4. Qualification based on points accumulated in either TBF Oregon Circuit
5. In case of a tie, the first tie breaker will be number of TBF Oregon Qualifier events fished
6. Second tie breaker will be the total number of TBF Oregon events fished
7. Third tie breaker will be split between a boater and non-boater from each team by draw

Teams	Criteria
1	Highest finishing Non-State Team participant (most points on either circuit)
2	Highest finishing Non-State Team participant for each circuit (most points on each circuit)
3	Next highest finishing Non-State Team participant (most points on either circuit)
4	Next highest finishing Non-State Team participant (2 teams for each circuit)
